

## Node-RED Service:

The screenshot displays the Node-RED web interface in a browser. The address bar shows the URL: `node-red-uexaz-2022-11-17.eu-gb.mybluemix.net/red/#flow/f9b1473debe34459`. The interface includes a left sidebar with node categories, a central workspace for building flows, and a right sidebar with a debug console.

**Flow 1:** The flow consists of two nodes connected in sequence:

- inject** node (blue) with the text `hello dayana`.
- msg.payload** node (green) which receives the payload from the inject node.

**Debug Console:** The console shows two log entries for the `msg.payload` node:

```
17/11/2022, 21:41:43 node: f2f2649e.0d0d98  
msg.payload : string[12]  
"hello dayana"  
17/11/2022, 21:42:20 node: f2f2649e.0d0d98  
msg.payload : string[12]  
"hello dayana"
```
